

Hello I'm

Omnia Hatem

Graphic Designer, Illustrator

About me

I'm a passionate graphic designer specializing in character design. My love for art began early, and I've been creating ever since. As a Level 4 designer, I've honed my skills in turning ideas into visually compelling stories, whether through branding, illustration, or character development.

I see the world a little differently, always finding unique perspectives in everyday life, and that vision shapes the work I create. Over the years, I've worked on a wide range of projects that blend creativity with precision, pushing the boundaries of design. I'm always excited to explore new ideas and bring them to life.

Take a look at my portfolio to see the creative journey I've been on! If you're looking for someone who can bring fresh, innovative ideas to your project, let's connect and create something extraordinary together.

My project

Personality:

This character has an intellectual, slightly quirky vibe. His exaggerated facial features, especially his large eyes and slender face, give him an introspective, observant look. He may appear a bit critical or mysterious, but there's a touch of sophistication in his high-collared, formal attire, hinting that he values appearances and has refined tastes.

Physical Description:

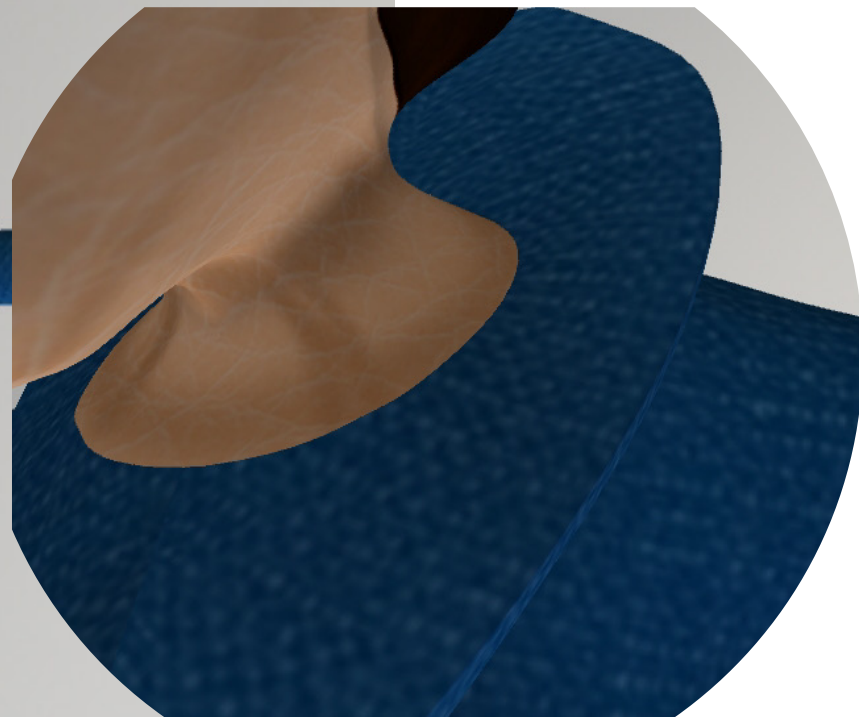

Face and Head: A long, narrow face with pronounced cheekbones, large eyes, and an overall serious, introspective look.

Attire: The dark blue, high-collared outfit hints at a stylish, slightly dramatic personality, showing pride in his appearance and a sophisticated sense of fashion.

Body: Thin, elongated limbs and a slight frame, adding to his elegant, almost delicate look.
